PROFILE

Emma began her college career studying Biology but later found that her true passion was in Interior Design. Emma pursued a Bachelor of Science in Interior Architecture and a Certificate in Design Strategy at the School of Human Ecology. She has always had an interest in sustainable design since she's always found it both functionally and aesthetically appealing. Her certificate also provides herself with the skills of problem-solving with a focus on sustainable futures.

DESIGN EXPERIENCE

Heartland Building & Design

Design Assistant

2024

- Utilized Chief Architect to create floor plans, elevations, and renderings for clients.
- Experience with creating inspiration boards and selections for residential projects.

RELEVANT COURSEWORK

University of Wisconsin-Madison, Department of Design Studies

2019-2024

- **Person & Environment Interactions:** Learned the effects of building and outdoor spaces on people over the life course.
- **Interior Design I, II, III & V:** Designed both residential and commercial interiors including space planning, lighting design, selections of materials and furniture, professional communication of design solutions.
- **Materials & Finishes:** Focused on the composition of materials, their uses, and how they affect human health and wellbeing.
- **Interior Architectural Design:** Built components, construction, interpretation of working drawings, and the process of project development.
- **Design Programming:** Developed skills in preparing a design program document that includes multiple user-needs and principles of environment-behavior interaction.
