Continuing Education Program

SUMMERHILL[™] Coastal Collection[™]

Quartz Fabrication Techniques

Course: AIA Cambria012017

Course: IDCEC CEU-106011

Course: NARI

Course: NKBA

AIA Credit: 1LU/HSW

IDCEC Credit: 0.1 CEU/HSW

NARI Credit: 1 CEU

NKBA Credit: 0.1 CEU

This exclusive face-to-face presentation by a Cambria[®] representative will give you a foundational understanding of the superior characteristics and many applications of quartz surfaces. You'll learn how quartz slabs are created, along with templating options and processes. In addition, proven fabrication techniques will be explored to help fulfill your design vision, along with installation requirements for quartz applications.

Outline includes:

- | | | |
|-------------------------|-------------------------------|--------------------------|
| 1. Quartz Overview | 4. Seven Steps of Fabrication | 6. Design Considerations |
| 2. Slab Production | 5. Packaging & Transport | 7. Applications |
| 3. Fabrication Facility | | |
