Selected Works

Niranjana Menon

Manhattan Townhouse

This is a penthouse designed for a couple residing in Manhattan, a mechanical engineer and a biologist. They enjoy hosting dinner parties for friends and families. Features were incorporated with respect to their interests and professions in a sustainable aspect.

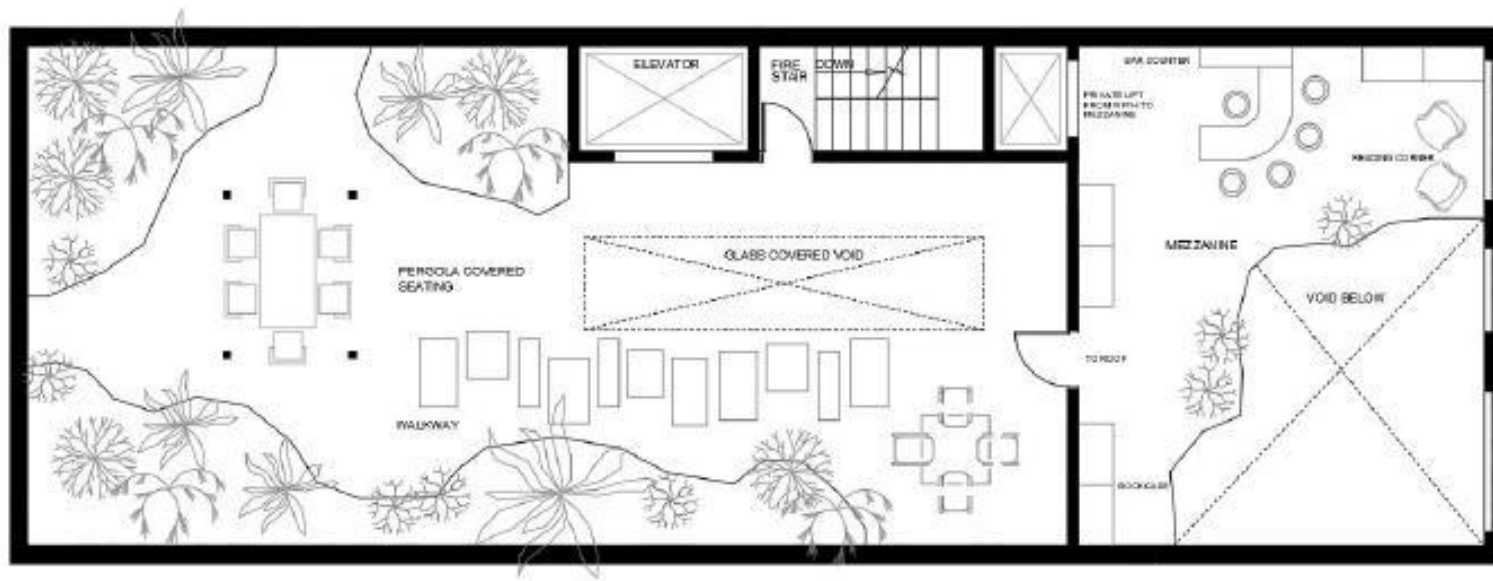

The townhouse design is an amalgamation of multiple ideas including the use of biomimicry to emulate nature’s processes, forms, and ecosystems and the 14 Patterns of Biophilia, specifically:

- Visual connection with nature
- Thermal and airflow variability
- Dynamic and diffuse light
- Biomorphic forms and patterns

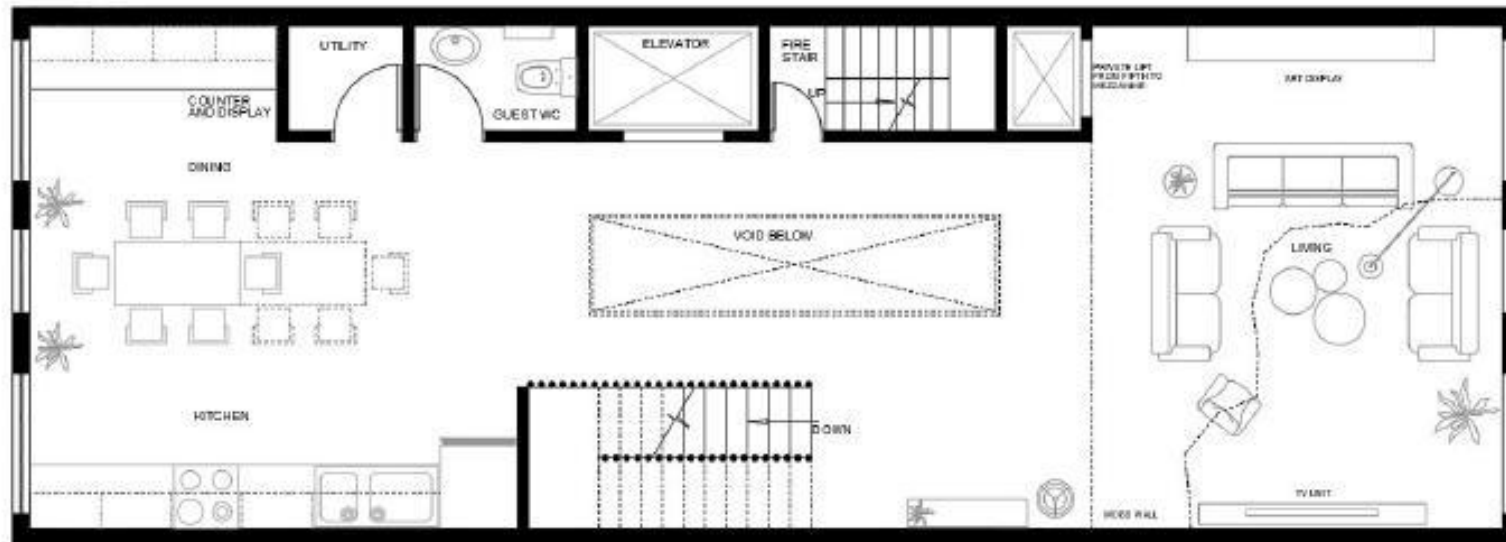

Project Status : Academic
Project Year : 2020
Client : Working Couple
Site Area : 185 SQUARE METER
Location : Manhattan, USA

MOSS WALL IN LIVING AREA

This energy efficient design with inbuilt nature has been designed in a cost effective and ecologically efficient manner.

INDOOR GREEN SPACE

This space is LEED and WELL certified

OSEA Retail Store

Architecture Portfolio

This is a flagship store designed for OSEA, a skincare and lifestyle range with a holistic approach in Soho. Unconventional retail spaces, beauty therapy areas and yoga studios translated the brand's identity into customer experience.

Spaces in the store included :

- Beauty bars
- Yoga and reiki studio
- Spa and saloon
- Multi purpose event space

Project Status : Academic
Project Year : 2020
Client : OSEA
Site Area : 300 SQUARE METER
Location : Manhattan, USA

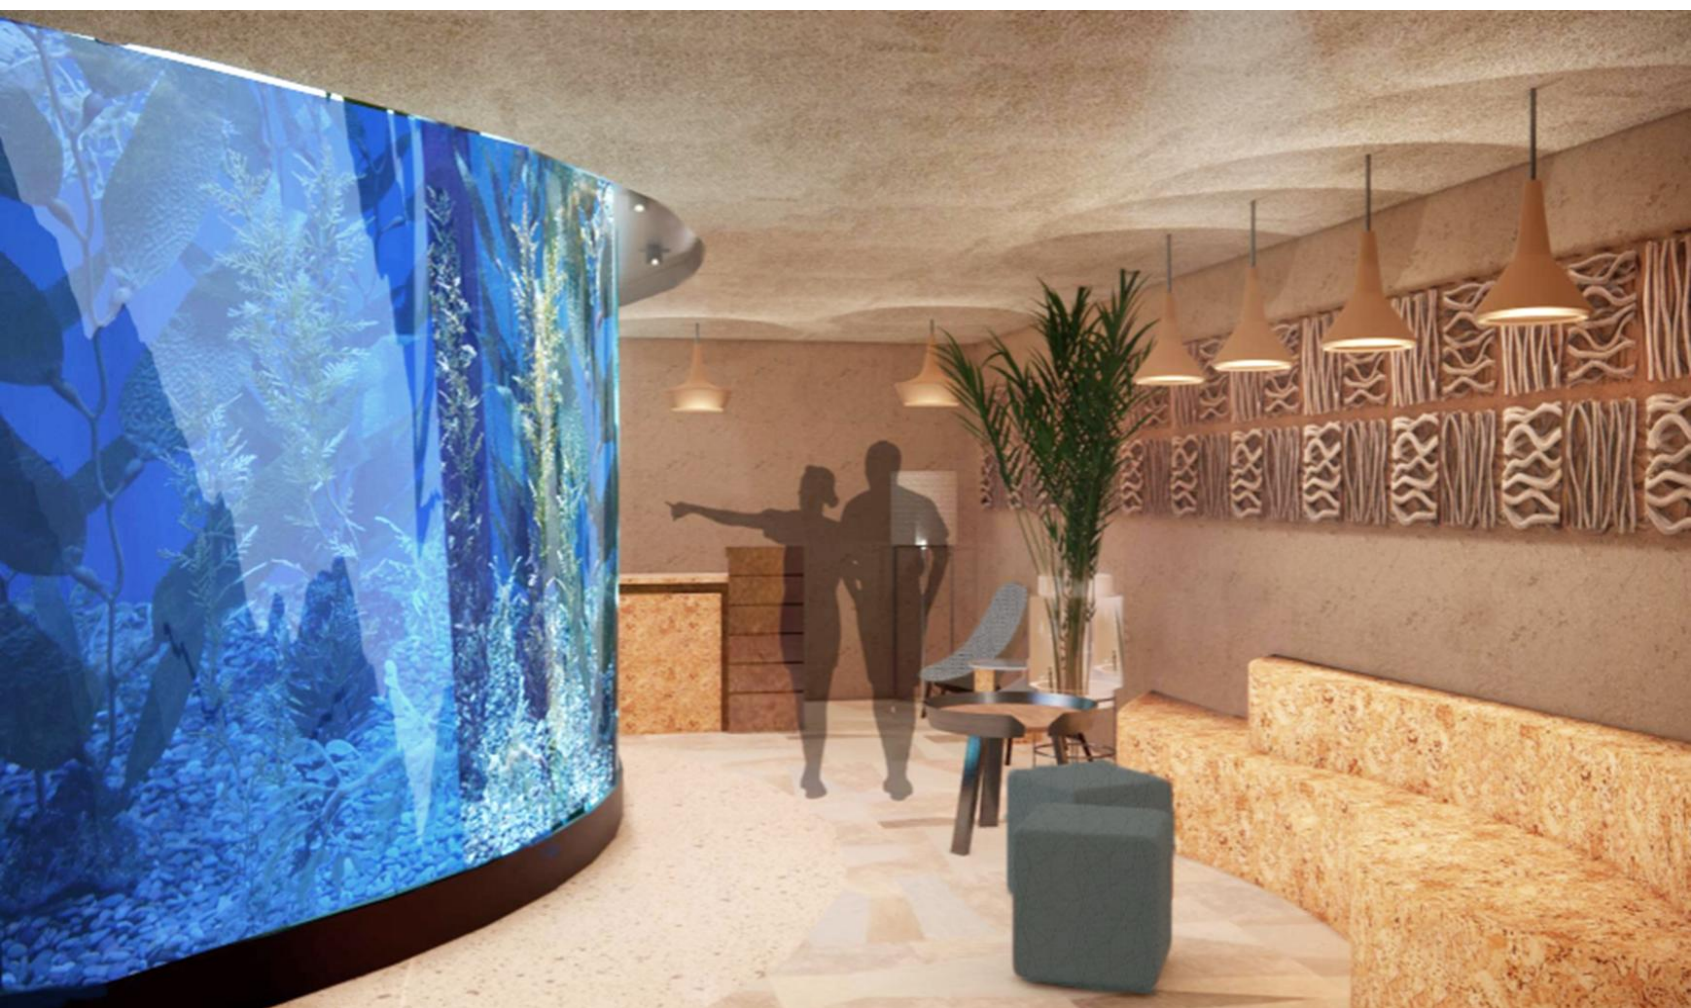

VIEW OF THE BEAUTY BAR

Retail space constituted digital screens showing the brand history, feature staircase wrapped around an aquarium and various trial stations. Greenery, water and well lit spaces developed a sense of nature in a built space.
